Wood Group Signs \$20 Million Six-Year Gas Turbine Maintenance Agreement with Air Liquide in the Netherlands

The Gas Turbine Services Division of international energy services company, John Wood Group PLC ("Wood Group"), has been awarded a six-year contract, worth approximately \$20 million, from international industrial and medical gas supplier, Air Liquide, for the maintenance of three General Electric Frame 6B and two General Electric Frame 9E gas turbines operated at three cogeneration facilities in the Netherlands.

The contract includes an innovative risk-sharing arrangement based on the management of major maintenance for the two different models of gas turbine, located at the Enecal and Eurogen facilities in Rozenburg, and the Pergen facility in Rotterdam.

Mitch Robinson, President of Wood Group Integrated Plant Solutions, said: "Air Liquide recognized the value in partnering with a solutions-based provider, capable of delivering innovative maintenance solutions that are wholly aligned to the customer's particular requirements. We are delighted to be working with Air Liquide and look forward to adding value to their operations."

Jaap Hoogcarspel, Managing Director of Air Liquide Industrie BV, said: "We identified Wood Group as a partner that could help us to increase our total efficiency through improved and innovative management of our major maintenance activities."

-ends-

Wood Group is an international energy services company with \$3.5bn sales, employing 20,000 people worldwide and operating in 44 countries. The Group has three businesses – Engineering & Production Facilities, Well Support, and Gas Turbine Services – providing a range of engineering, production support, maintenance management and industrial gas turbine overhaul and repair services to the oil & gas, and power generation industries worldwide.

Wood Group Gas Turbine Services is the world-leading independent provider of integrated maintenance solutions, and repair and overhaul services for industrial gas turbines, used for power generation, compression and transmission in the oil & gas and power generation industries.

Wood Group Integrated Plant Solutions, part of Wood Group's Gas Turbine Services business, works with customers to customize a total plant solution that shares the risks involved in plant ownership and maintenance to reduce the customer's long-term operation and maintenance costs.

Present in 72 countries, **Air Liquide** is a world leader in industrial and medical gases and related services. The Group offers innovative solutions based on constantly enhanced technologies. These solutions, which are consistent with Air Liquide's commitment to sustainable development, help to protect life and enable our customers to manufacture many indispensable everyday products. Founded in 1902, Air Liquide has nearly 37,000 employees. www.airliquide.com
